An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for February is 3.5 percent, one and a tenth percentage points below the national rate of 4.6 percent, Craig E. Hartzler, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during February 2001 was 2,934,500

Indiana's February unemployment rate was lower than Illinois, 5.4 percent; Ohio, 4.3 percent; Kentucky, 4.6 percent and, Michigan 5.1 percent.

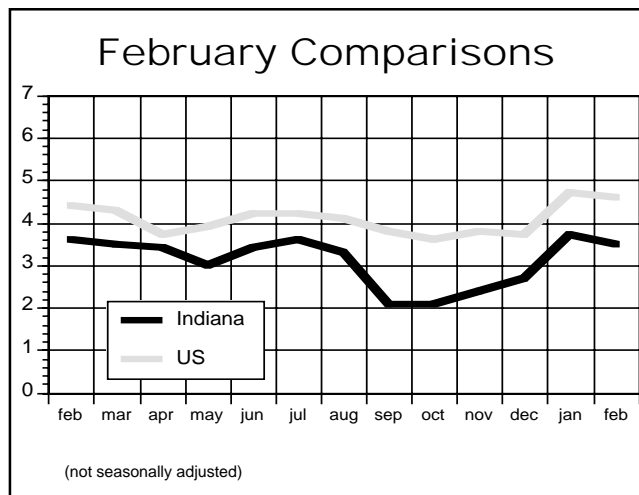

"Despite much talk of the economy's slow growth, Indiana's unemployment rate remains well below the national rate and that of our neighbor-

ing states. While we have seen a decrease in employer's appetite for workers, we still aren't faced with the high unemployment figures of a decade ago," commented Hartzler.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,962,100, an increase of 4,500 from one year ago. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 668,800 in February, a decrease of 21,200 from last year. Motor vehicle manufacturing accounts for 96,300 jobs, 7,600 less than one year ago. Manufacturing of motor vehicle parts totals 62,300. Industrial machinery manufacturing in February accounts for 73,000 Hoosier jobs, 400 less than January.

Construction employment totals 138,600 an increase of 700 from last month. Of that, heavy construction reports 13,500 jobs, an increase of 400 from January.

(over)

Service producing employment totals 2,149,200 in February, 25,100 more than last year. Transportation and public utilities total 147,300, or 100 more than January.

Retail trade totals 545,200, 400 more than a year ago. Of that, general merchandise stores report employment of 80,900, or 600 more than last year. Service sector employment, such as business services, computer and data processing, totals 748,200 in February, which is 19,500 more than the previous year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,039,800 in February 2001. An estimated 2,934,500 Hoosiers are employed and 105,300 are unemployed.

Indiana's labor force for February 2000 totaled 3,039,200. Hoosiers employed one year ago is estimated at 2,912,600, and February 2000 unemployed in Indiana totaled 126,600. Indiana's estimated unemployment rate one year ago was 4.2 percent, compared with the national unemployment rate of 4.4 percent in February 2000.

Industry Payroll Employment

Selected Categories	February 2001	Change from Jan. 2001	Change from Feb. 2000
Goods Producing	812,900	0	-20,600
• Construction	138,600	+700	+800
